TELECOMMUNICATIONS

KX-FP701

Navigator Key for Easy Operation
The navigator key lets you easily control the volume and ringer level, as well as the phone directory & dialer, and other advanced functions.

28-Page Document Memory*1*2
The system can store up to 25 pages in its built-in memory for transmission. Ideal for broadcasting multi-page documents to multiple locations. This feature will also allow the unit to receive documents up to 28 pages if it has run out of paper.

Enhanced Copier Functions
This fax provides you every copying feature you need, in one machine. The Enlarge (200/150%), reduce (92/86/72%), collate (sort), make up to 50 copies. Furthermore this fax performs a range of advanced copier functions.

Advanced Features

Quick Scan
Spend less time waiting for your documents to scan! This feature rapidly scans a document into memory & then sends the document from memory to the recipient.

Sequential broadcasting (20 Locations)
The sequential broadcast feature allows you to send multi-page documents to multiple locations at your command.

Informative 2-line LCD Screen
The 2 x 16 character LCD readout indicates operating modes, memory contents, clock time, and telephone number dialed. Also it helps during programming system features or storing telephone number in directory.

Error Correction Mode (ECM)
The system ECM checks documents line by line during transmission. If it detects errors caused by line noise, it resends the same line to ensure good quality.

Other Features

- Distinctive Ring detection*3
